Action Taken Report of the Institution on Feedback

Academic year 2022-2023

This organization is affiliated to JNTUA, Anantapur and the college academic curriculum is designed by the Board of Studies in the University. Board of Studies designs curriculum by taking suggestions and remarks from the affiliated colleges through conducting meetings with the Principals (of the affiliated colleges) before preparing the Blueprint of curriculum.

However, the institution gets input on the development and design of the curriculum from a range of stakeholders. During college academic sessions, the input is compiled and examined. Institutions propose to set up training programmes led by academicians and industry experts based on feedback requirements. There is good coordination between the lab activities and theory sessions. Visits from businesses are planned to enhance the curriculum. Sessions of mock interviews are scheduled in order to get positions. To help students become more adept at behaviour, ethics is introduced.

While information is gathered from experts, the Principal attends university meetings to provide necessary suggestions and remarks about the curriculum, which are then tailored to the needs of the students. This approach goes beyond simply compiling information to support students' capacity for creative thought.
